Final Day For Farm Program Sign-up Nears

With the March 10 deadline nearing for sign-up in the 1972 feed grain and wheat programs, some 100 to 150 more farmers are expected in the Appomattox County Agricultural Stabilization and Conservation Service (ASCS) Office for enrollment during the final week.

Through March 6, approximately 400 producers in Appomattox County had signed up for participation in one or more of the set-aside programs offered in 1972, according to J. P. Alvis Jr., ASC County Committee Chairman.

"We've been recording about 20 sign-up per day, but we expect that average to climb sharply during the last week of sign-up," he said. Total participation in Appomattox County is expected to number about 550 farms.

Farmers have been waiting to sign-up early each day, he reported, starting at 8:30 a.m. when the local ASCS office opens. The office closes at 5:00 p.m., and Mr. Alvis said that any producer who is in the office before closing time will be registered for enrollment that day.

In the 1972 voluntary Farm Programs, participants agree to set-aside 25 percent of their farm's base or allotment of whatever crop or crops they sign-up for. Options are offered for additional voluntary set-aside in the wheat and feed grain (corn, grain sorghum, barley) programs, in order to aid farmers in bringing production into better adjustment with market demand.

In return for setting aside a portion of their productive land, producers earn set-aside payments based on their farms' established yields for the program crops. Additionally, program crops on participating farms are eligible for support loans.

Producers were reminded by ASC Committee Chairman Alvis that they may request set-aside inspection and measurement service at the same time they sign-up for the farm programs. This service, which is provided at cost, offers a quality and quantity guarantee on set-aside acreas.

Copperhead Appears Early

Tommy, 13, and Andy Wingfield, 11, (above) found this four foot copperhead snake a little too close to town and their home to suit them. They found the snake Thursday afternoon, March 2, near the new overhead railroad bridge fairly close to their home on Virginia Avenue. Tommy says that Andy almost stepped on the snake. He pushed him aside and together the boys killed it. March may be a little early for snakes but last week's weather was pleasant enough for jonquils to bloom and for many readers to wish very hard that spring would come AND STAY. In the meantime the Wingfields are keeping an eye to the ground if they venture in the general area where the copperhead came out for sunshine.

Transplant Saved Eyesight

Seeks More Eye Donors

by Wm. F. Grishaw

Few people who pass by me on a street or in a grocery store, are aware that it was only a few years ago that I could hardly see how to walk down a street or select groceries from a shelf. I could not hold down a job, so I had to depend on my mother and father for my daily bread.

Today, however, I have a good job, a fine home and a lovely family, and they depend on me for their daily bread.

Today there are some five million blind or near blind people who could have their eyesight restored by the same corneal transplantation operation I had.

The eye tissue for these corneal transplants must come from those individuals, who are willing to donate it on death, for this purpose. Unfortunately the great shortage of human eye tissue for such an operation, means that only a small percentage of these people will ever be given sight - restoring corneal transplants.

These people need your help, just as I needed your help six years ago. Would you like to help someone like me? If so, sign up as an eye donor by contacting any member of the Lions' Club or by writing directly to the Old Dominion Eye Bank, Richmond Eye Hospital, Richmond, and pledge your eye on death so that others may see.

It was sign-up day for the Grishaws Tuesday as Wm. F. Grishaw, his wife Nancy, daughter Ursula, four and Sharon, 17 months talked with Dr. C. G. O'Brien, (far left). Sight Saving chairman of the Appomattox Lions Club. Fred and his wife, Nancy, signed donor cards giving their eyes, at death, for use for corneal transplants or scientific research. Dr. O'Brien keeps a pocketful of donor cards handy for all adults wanting to be donors, also, and he urges everyone to consider this way to provide eyesight for someone else. April 21-22 is White Cane Day in Appomattox, an annual fund drive to aid sight-saving projects.
